

B.C.'s own

Indigenous feature production
since 1960

The list below attempts to sum up indigenous feature film activity in British Columbia since the 1960s. Since the list provided to Cinema Canada from the B.C. Film Promotion office did not distinguish between foreign shoots and Canadian ones, we have attempted to establish nationality. Granted, there will be errors and omissions, and for these we apologize in advance. We have not listed television production.
