

Production Guide

BY JIM LEVESQUE

The following is a list of current projects being produced in Canada. Only TV series and films over one hour are included. Projects are separated into four categories: On Location, Pre-production, Projects in Negotiation, and In the Can. While films in the project stage are subject to change, only those in active pre-production at the time of publication – those which have set a date for beginning principal photography and are also engaged in casting and crewing – are listed under Pre-production. The In Negotiation section is published every other month due to lack of turnover in projects. Films are listed by the name of the company which initiated the project, or by the company that is popularly associated with it. The production company is not necessarily the same company which initiated or is associated with the project.

When two companies are different, the name of the production company, if known, is given. If producers ask us not to list a project or to withhold certain credits because of ongoing negotiations, we respect their request. Projects are up-to-date as of the 15th of the month preceding publication. Please telephone additions and up-dates to: Cinema Canada (416) 596-6829 or (514) 272-5354; FAX (514) 270-5068

Saskatchewan Film Development Officer

As a motivating force behind film development, you will contribute your highly developed management skills and film production experience towards leadership, support and direction of this growing Saskatchewan industry. Reporting directly to the Film Advisory Committee, you will be responsible for:

- policy development
- loan fund management and maintenance
- pre-production loan assessment (internal/external)
- project application assessment/recommendations
- office management
- corporate relations (representing the province in dealings with the public, the industry, associations, and departments outside the province).

Qualifications

- Extensive working knowledge and senior management experience in the film and television industry
- Solid understanding of planning, financial and business management principles and practices within the industry
- Effective, creative leadership skills
- Excellent communication skills
- Excellent human resource management skills.

Salary

Commensurate with experience.

How to be everywhere at once.

All these locations were shot in one place. Jamaica.

Jamaica's not too far away, and yet it's a whole world of great locations. Tropical beaches and cool blue mountains. Arid plains, lush jungles, colonial fortresses and quaint fishing villages.

"Cocktails," "Clara's Heart," and "Harder They Come" found a world of beauty here.

What's more, we have state-of-the-art equipment on hand, on the island. And Jamaica's pool of skilled film personnel, together with the government's special film office in Jamaica, make shooting here incredibly easy.

For a brochure on filming in Jamaica — loaded with facts and locations — just call or write.
